PROFESSIONAL SUMMARY

Frontend and Android Developer with 2+ years of experience building responsive web applications using React, Vite, and Tailwind CSS, and native Android apps using Kotlin. Skilled in translating product requirements into performant, accessible user interfaces. Seeking a Software Engineer role at a product-based company to contribute to scalable, user-focused applications.

EDUCATION

B.Tech in Computer Science and Engineering

Delhi Technological University — Delhi, India | 2020 – 2024 | CGPA: 8.4/10

EXPERIENCE

Frontend Developer

Brightwave Technologies — Remote | Jul 2024 – Present

- Developed and maintained 15+ reusable React components using Vite and Tailwind CSS, reducing page load time by 30%.
- Collaborated with backend engineers to integrate REST APIs, improving data accuracy across 5 core product modules.
- Refactored legacy JavaScript codebase to modern React hooks, cutting bug reports by 20% within one quarter.

Software Development Intern

Nimbus Softworks — Bengaluru, India | Jan 2024 – Jun 2024

- Built a Kotlin-based Android module for offline data sync, adopted by the core mobile team.
- Wrote unit tests achieving 85% code coverage on newly developed features.
- Participated in Agile sprint ceremonies and code reviews, delivering all assigned tickets on schedule.

PROJECTS

Nexa — E-commerce Web Application

React, Vite, Tailwind CSS

- Built a full-featured e-commerce platform inspired by Amazon, including product search, cart, and checkout flows.
- Implemented responsive layouts and state management for a smooth cross-device shopping experience.

Deepu AI — Android Voice Assistant / Accessibility Companion

Kotlin, Android SDK

- Developed a voice-driven Android assistant app focused on accessibility use cases.
- Designed the app architecture for reliable voice command recognition and response handling.

ABTalks — 60-Day Claude Code Challenge

Content Series, Claude/AI Tooling

- Authored a daily LinkedIn content series teaching Claude and AI concepts to beginner developers.

SKILLS

Languages: JavaScript, Kotlin, HTML, CSS
